## Proposal for Book Publication

The Ithacan Historical Society has a record of supporting the publication of works relating to the history of Ithaca and its region, including sources useful for genealogical research, and the migration history of the large Ithacan diaspora.

The IHS is open to proposals for new books including:

- ▷ The **transcription of unpublished documentary sources**, with a critical apparatus, commentary or ancillary chapters to explain the sources.
- ▷ **Studies** which treat a particular topic at length.
- ▷ **Works of more general scope** relevant to the history of Ithaca or the Ionian islands.
- ▷ **Translations** of relevant works in foreign languages into English.

Authors with an interest in making a proposal for the series are invited to contact the Society. Formal expressions of interest may be submitted through completion of the form attached.

Proposals will be assessed following consultation and review.

Questions relating to proposals should be addressed to the Editor, at [contact@ithacanhistorical.org](mailto:contact@ithacanhistorical.org)
